SUMMARY

I'm a Software Developer with experience in JavaScript, React.js, Next.js, and React-Redux. I build responsive, scalable web applications with clean architecture and optimized performance. I'm passionate about creating seamless user experiences through modern UI/UX practices and writing clean, maintainable code.

EXPERIENCE

05/2024 - Present

Indore, India

● FincoopersTech India Pvt Ltd - Software Development Engineer

<https://fincooperstech.com/product>

IT division of Fincoopers Capital Pvt Ltd – a leading NBFC

- Developed **5+ key modules** of a scalable HRMS platform using **Next.js** and **MUI**, including a dynamic **Careers page** that improved candidate engagement, multi-mode interview scheduling with **RBAC**, role-based PDF generation, and a structured document manager for streamlined HR operations
- Built the frontend for an **Expense Management System** featuring **dynamic forms**, **multi-level approvals**, and **real-time reimbursement tracking**, reducing manual processing time.
- Designed a **reusable component library** and core UI structure for the **Vendor Management System (CommandX)**, increasing development speed and consistency across the engineering team
- Integrated a chatbot into the **Finexe app** using **Axios**, enabling **real-time cross-platform support** and enhancing user interaction time.
- Improved performance and UX of the **LOS system** by resolving **50+ UI bugs** and optimizing logic across devices, resulting in **decrease in load time** and smoother user experience

07/2023 - 04/2024

Remote

● Geniehub Solutions Pvt Ltd - Frontend Developer

<https://drive.google.com/file/d/1T1soW6Jbl7wljHtYbdkfhR9MpCgc1ioi/view>

In-house employment platform offering job and recruitment services

- **Developed the core frontend of an employment platform** using **JavaScript**, **React**, **Tailwind CSS**, and **HTML**, enabling seamless interaction between job seekers and providers and enhancing overall usability
- **Built accessible, responsive UIs** featuring dynamic job categories, subscription plans, and **secure payment processing via Razorpay**, handling multiple real-time transactions with a consistent and reliable user experience

EDUCATION

08/2022 - 06/2024

Indore, India

● Master of Computer Application

[Shri Govindram Seksaria Institute of Technology and Science \(SGSITS\)](#)

GPA **7.91 / 10.0**

08/2019 - 06/2022

Indore, India

● Bachelor of Science(C.S)

[St. Paul Institute of Professional Studies](#)

GPA **8.21 / 10.0**

PROJECTS

Personal Portfolio Website

🔗 <https://profile-portfolio-lake.vercel.app/>

Personal portfolio website showcasing skills and projects

- Designed and built a modern, responsive portfolio using React, Vite, and MUI to showcase projects, skills, and experience with smooth, user-friendly animations.
- Implemented subtle UI enhancements for improved user experience and deployed the site via Vercel with GitHub-integrated auto-deployment for seamless updates.

Gas Metering Data Analysis - Sanmarg Projects Pvt Ltd

📅 05/2024 - 07/2024 📍 Noida, India

Data analysis project focused on gas metering data

- Analyzed city-wide gas metering data using Python, Pandas, and Matplotlib to identify revenue losses caused by meter reading discrepancies.
- Cleaned, transformed, and visualized data to generate actionable reports highlighting high-loss zones for informed, strategic decisions.

SKILLS

Next.js	React.js	Javascript	Material UI	Tailwind CSS	React-Redux	Context Apis	Git	GitHub	HTML	Figma	Python
SQL	Matplotlib	Pandas	Numpy	REST Apis	Vercel	TypeScript	C++	JIRA	GitLab	Typescript	RBAC
PDF Generation	Debugging	Adaptability	Effective Communication	UI Optimization	Dynamic Form Generation						

STRENGTHS

Team Player

Collaborative, effective communicator, skilled in using Git and Jira

Fast Learner

Quick to grasp new technologies, frameworks, and tools to adapt to evolving project needs

Problem-Solver

Adept at debugging complex issues and optimizing UI performance
