SUMMARY

Software Developer with strong experience in **Next.js, React.js, JavaScript, and modern web technologies**. Skilled in building scalable, responsive applications with clean architecture. Passionate about delivering user-friendly solutions, optimizing performance, and solving business problems with technology.

Projects

- **AI Expense Handler** ai-expense-handler.vercel.app
 - Built an AI-powered expense management platform using Next.js, Inngest, Arcjet, ShadCN, Supabase, Prisma, Clerk, React Email, Recharts, and Gemini Generative AI.
 - Implemented multi-account management, budgets, AI receipt scanning, transaction creation/editing, and automated monthly reports with email alerts.
 - Increased financial tracking efficiency by **50%** through automation and AI-driven workflows.
- **Portfolio Website** profile-portfolio-lake.vercel.app
 - Developed a responsive personal portfolio using React, Vite, and MUI, showcasing projects and skills.
 - Automated CI/CD deployment with Vercel, reducing release time by **70%**.
- **Gas Metering Data Analysis (Sanmarg Projects Pvt Ltd)**
 - Analyzed large-scale gas metering data using Python, Pandas, and Matplotlib.
 - Identified discrepancies and provided actionable insights, reducing wastage by **15%**.

Experience

- **Software Development Engineer – FincoopersTech India Pvt Ltd (IT Division of Fincoopers Capital Pvt Ltd) — Indore, India**
May 2024 – Present
fincooperstech.com
 - Engineered and deployed **5+ HRMS modules** using Next.js and MUI, including career portals, case allocation, and interview scheduling with **Role-Based Access Control (RBAC)**, improving HR operations efficiency.
 - Built an automated **Expense Management System**, reducing reimbursement processing time by **35%** and cutting manual effort by **20+ hours/month**.
 - Developed a reusable UI component library, accelerating project delivery speed by **30%** across multiple modules.
 - Integrated an AI-powered chatbot to handle employee queries, improving support response times by **45%**.
- **Frontend Developer – Geniehub Solutions Pvt Ltd (Project Reference) — Indore, India**
Jul 2023 – Apr 2024
Project Link
 - Designed and implemented **responsive, mobile-first UIs** for an employment platform using React and Tailwind CSS, enhancing accessibility and engagement.
 - Integrated Razorpay payment gateway to enable **1000+ secure subscription transactions**, ensuring seamless checkout experience.
 - Optimized frontend performance, reducing page load times by **25%** and boosting user retention.
 - Collaborated with backend engineers to design scalable REST API integrations, supporting **5k+ monthly active users**.

Education

- **Master of Computer Application (MCA)** Shri Govindram Seksaria Institute of Technology and Science (SGSITS), Indore Duration: Oct 2022 – Jun 2024 GPA: 7.91 / 10.0
- **Bachelor of Science (Computer Science)** St. Paul Institute of Professional Studies (SPIPS), Indore Duration: Aug 2019 – May 2022 GPA: 8.21 / 10.0

Technical Skills

- **Web Development:** Next.js, React.js, JavaScript, Material UI, Tailwind CSS, React-Redux, Context APIs, ShadCN
- **Backend & Databases:** Supabase, Prisma, REST APIs
- **Cloud & Tools:** Inngest, Arcjet, Clerk, React Email, Vercel
- **Data Visualization:** Recharts, Matplotlib
- **AI & Automation:** Gemini Generative AI, Automation Workflows
- **Version Control:** Git, GitHub, GitLab
- **Data Analysis:** Python, SQL, Pandas, NumPy

Soft Skills

- Adaptability
- Communication
- Teamwork
- Problem-Solving
