SUMMARY

Software Developer with strong experience in **Next.js**, **React.js**, **JavaScript**, and modern web technologies. Skilled in building scalable, responsive applications with clean architecture. Passionate about delivering user-friendly solutions, optimizing performance, and solving business problems with technology.

PROJECTS

AI Expense Handler — ai-expense-handler.vercel.app

- Built an AI-powered expense management platform using Next.js, Inngest, Arcjet, ShadCN, Supabase, Prisma, Clerk, React Email, Recharts, and Gemini Generative AI.
- Implemented multi-account management, budgets, AI receipt scanning, transaction creation/editing, and automated monthly reports with email alerts.
- Increased financial tracking efficiency by 50% through automation and AI-driven workflows.

Portfolio Website — profile-portfolio-lake.vercel.app

- Developed a responsive personal portfolio using React, Vite, and MUI, showcasing projects and skills.
- Automated CI/CD deployment with Vercel, reducing release time by 70%.

Gas Metering Data Analysis (Sanmarg Projects Pvt Ltd)

- Analyzed large-scale gas metering data using Python, Pandas, and Matplotlib.
- Identified discrepancies and provided actionable insights, reducing wastage by 15%.

EXPERIENCE

Software Development Engineer — Fincoopers Capital Pvt Ltd

May 2024 – Present

Indore, Madhya Pradesh, India

- Developed 5+ key modules of a scalable HRMS platform using Next.js and MUI, including a dynamic Careers page that boosted candidate engagement, multi-mode interview scheduling with RBAC, role-based PDF generation, and a structured document manager.
- Built the frontend for an Expense Management System with dynamic forms, multi-level approvals, and real-time reimbursement tracking, cutting manual processing time significantly.
- Designed a reusable component library and core UI for the Vendor Management System (CommandX), increasing development speed and consistency.
- Integrated a chatbot into the Finexe app using Axios, enabling real-time support and enhancing user interaction.
- Improved performance and UX of the Loan Origination System (LOS) by fixing 50+ UI bugs and optimizing logic, reducing load times and enhancing user experience.

Frontend Developer — Geniehub Solutions Pvt Ltd

Jul 2023 – Apr 2024

Remote

- Built responsive, mobile-first UIs with React and Tailwind CSS for cross-device consistency.
- Integrated Razorpay, enabling 1,000+ secure subscription transactions.
- Optimized frontend and APIs, cutting load times by 25%.

EDUCATION

Master of Computer Application (MCA) — SGSITS, Indore
GPA: 7.91 / 10.0

Oct 2022 – Jun 2024

Bachelor of Science (Computer Science) — SPIPS, Indore
GPA: 8.21 / 10.0

Aug 2019 – May 2022

TECHNICAL SKILLS

Web Development: Next.js, React.js, JavaScript, Material UI, Tailwind CSS, Redux, Context APIs, ShadCN

Backend & Databases: Supabase, Prisma, REST APIs

Cloud & Tools: Inngest, Arcjet, Clerk, React Email, Vercel

Data Visualization: Recharts, Matplotlib

AI & Automation: Gemini Generative AI, Automation Workflows

Version Control: Git, GitHub, GitLab

Data Analysis: Python, SQL, Pandas, NumPy

SOFT SKILLS

Adaptability — Communication — Teamwork — Problem-Solving
