Indore, Madhya Pradesh (India) | +91-7489009596 | [LINKEDIN](#) | rajayadav12061@gmail.com | [PORTFOLIO](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable, responsive web and mobile applications across the MERN stack using React.js, Next.js, React Native, Node.js, Express.js, and MongoDB. Strong in frontend architecture, reusable component design, REST API development, and state management with Redux and Context API. Proven record of shipping production-ready features that improve performance, development velocity, and user experience.

TECHNICAL SKILLS

React.js, Next.js, React Native, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, MUI, ShadCN, Redux, Context API, Responsive Design, Component Architecture, REST APIs, Node.js, Express.js, Prisma ORM, MongoDB, MySQL, Supabase, JWT Authentication, Git, GitHub, Bitbucket, Docker, CI/CD, AWS, Vercel, Clerk, Inngest, Arcjet, React Email, Recharts, Python, Generative AI Integration, Gemini API, GitHub Copilot, Agile.

WORK EXPERIENCE

Blucursor Infotech Pvt Ltd

Nov 2025 - Jun 2026

Role - Software Development Engineer

Indore, Madhya Pradesh (India)

- Developed full-stack workflows for CertifyMe across 4+ modules, including onboarding, property forms, document handling, and verification, using Next.js, Node.js, and Express.js with REST APIs.
- Engineered a toggle-based AI chatbot assistant for contextual form guidance, adding 10+ field-level validation and error-handling checks that improved submission accuracy.
- Built 3+ interactive dashboards and personnel-tracking flows on the Piemind platform, implementing activity logs and real-time alerts while resolving 20+ recurring UI issues.
- Delivered the Botriq waiter-robot system end to end across 2 apps: a React Native tablet app handling multiple robot command workflows (REST API, AOA integration, Gradle bundling) and a React web admin portal for real-time location control.
- Optimized the web and mobile experience of Billsora across 3+ screen sizes, improving responsiveness, refining usability, and resolving 15+ UI bugs.

Fincoopers Capital Pvt Ltd

May 2024 - Oct 2025

Role - Software Development Engineer

Indore, Madhya Pradesh (India)

- Built 5+ core modules for an HRMS platform with Next.js and MUI, including a Careers page, RBAC-based interview scheduling, role-based PDF generation, and document management.
- Developed an Expense Management System with dynamic forms, multi-step approval workflows, and real-time reimbursements, reducing manual processing effort.
- Designed reusable React UI components for the Vendor Management system (CommandX), accelerating development speed and enforcing design consistency across the product.
- Integrated chatbot support in Finexe using Axios and improved LOS performance by resolving 50+ UI bugs and optimizing frontend logic.

Geniehub Solutions Pvt Ltd

Jan 2024 - Apr 2024

Role - Frontend Developer Intern

Remote

- Built responsive, mobile-first UIs with React and Tailwind CSS, ensuring consistent rendering across devices and browsers.
- Integrated the Razorpay payment gateway, enabling 1,000+ secure subscription transactions.
- Optimized frontend and API performance, reducing page load times by approximately 25%.

PROJECTS

[AI Expense Handler](#)

- Tech Stack - Next.js, Node.js, Prisma ORM, Supabase, Clerk, ShadCN, Inngest, Arcjet, React Email, Recharts, Gemini Generative AI.
- Built a full-stack AI-powered expense platform with multi-account management, budgets, AI receipt scanning, transaction CRUD, and automated monthly email reports.
- Increased financial tracking efficiency by 50% through AI-driven automation and scheduled workflows.

Gas Metering Data Analysis

- Tech Stack - Python, Pandas, Matplotlib.
- Analyzed large-scale gas metering data and surfaced actionable insights, identifying discrepancies that reduced wastage by 15%.

EDUCATION

Master of Computer Application (MCA), SGSITS, Indore (GPA - 7.91/10)

2022-2024

Bachelor of Science (Computer Science), SPIPS, Indore (GPA - 8.21/10)

2019-2022
